

Junior Landcare

Providing children the opportunity to play an active role in ensuring the safe future of our natural environment

About Landcare Australia

Landcare Australia believes that landcare is for everyone

We support a network of individuals, groups and organisations working to **restore**, **enhance** and **protect** the environment.

Our vision

All Australians actively caring for the land and water that sustains us.

The landcare network

Over 6,000 groups and 140,000+ volunteers from the coast to the country all working to protect local ecosystems and contribute to **agricultural and environmental sustainability and productivity**.

We are 35 years young

We have a long and trusted history of creating **partnerships** with multiple stakeholders to support the landcare community with on-ground action.

About Junior Landcare

Launched in May 1998, Junior Landcare provides children an opportunity to play an active role in ensuring the safe future of their environment and other natural resources.

Junior Landcare encourages continuous participation from childhood to adulthood so that the children of today, become the landcarers of the future with an opportunity to become:

Aware of environmental issues of biodiversity, food production, waste management, and Indigenous perspectives

Empowered to take meaningful action for the environment

Active in their local environment and local community.

About Junior Landcare

Junior Landcare provides:

- Funding through partnerships
- Educational resources
- Knowledge sharing
- Professional development

Junior Landcare audience:

- Teachers and educators
- Landcare and community groups
- Early childhood centres
- Before and after school centres
- Primary schools
- High Schools
- Youth groups including Scouts and Girl Guides
- Parents and carers

Junior Landcare Learning Centre

The Junior Landcare Learning Centre provides more than 60 age-appropriate activities aligned to the school curriculum that introduce children to sustainable land management and conservation.

The activities help educators, parents and children build knowledge and deeper connections to:

- Biodiversity
 - Food production
 - First Nations perspectives
 - Waste management.
-
- 26 downloadable Just for Kids activity sheets, including a Holiday Journal, word searches, quizzes and drawing sheets.
-
- Educator Hub

Case studies

- Real-life case studies on projects funded through Junior Landcare grants programs.
- Search by project type, focus area or filter by state.
- Learn from previous or existing successful projects, their outcomes and lessons learnt.
- juniorlandcare.org.au/about/case-studies/

Upcoming webinar

Taking learning outdoors using First Nations perspectives

- Biodiversity Month and seasonal observation activities
- Featuring Junior Landcare ambassador, Costa Georgiadis, First Nations environmental educator, Adam Shipp and Junior Landcare educator, Sam Harrison
- Getting started, keeping it local and exploring resources available
- Monday, 16 September: 4-5pm
